Interests: project management, program management, operations, strategy, data science, analytics, financial services, automation, alternative data.

WORK EXPERIENCE

JP Morgan

Mumbai, India

Associate, Program manager, US Economics & Policy Research, Corporate & Investment Banking

Jan 2020 – May 2022

- Managed and maintained the lifecycle of data-driven projects for a team of analysts, involving tasks such as data modeling, quantitative forecasting, and visualization. Delivered complex technology initiatives with a keen eye for detail and effective follow-through.
- Boosted project completion efficiency by 20% through the strategic development and implementation of data strategies, effectively prioritizing tasks and tracking key business metrics.
- Supervised 20+ research projects, closely coordinating with the business and technology to ensure smooth execution. The success of these projects resulted in publications that attracted a 15% increase in client engagement and a 10% rise in inquiries from potential clients.
- Took ownership of relationships with top media publications partners like **Bloomberg Quint** and **Yahoo Finance**.
- Contributed to the Global Fixed-Income research team, achieving top rankings by institutional investors in 2020 and 2021.

Analyst, Program manager, Automation & Analytics Strategy, Corporate & Investment Banking

Jul 2018 – Dec 2019

- Developed and executed innovative automation and analytics strategies, focusing on managing complex technology initiatives throughout the product lifecycle and tracking key product metrics, saving over 4000+ man-hours annually and increasing team efficiency by 20%.
- Led meetings at the operational and project level, communicating clear and succinct updates to management and project sponsors. Facilitated team expansion, which resulted in a 50% increase in the number of projects handled by the team.
- Established cross-functional organizational structures as the first full-time recruit, demonstrating exceptional project and process management skills, and enhanced client communication.
- Proactively identified and managed dependencies, working across stakeholders to understand business needs, which further led to the creation of solutions facilitating product execution and development.

KEY PROJECTS

- “**US: Alternative Data-Driven Jobs Tracker**”, 2020-21, JP Morgan.
 - Led an initiative to reimagine 'payroll jobs tracking' utilizing ~25 high-frequency alternative data series. Identified and managed dependencies, leading to successful forecasting of jobs growth (nonfarm payroll).
- “**US: Chase Card Retail Sales Nowcasting**”, 2020-2021, JP Morgan.
 - Pioneered the development of a monthly retail sales tracker using proprietary Chase card consumer spending data. Presented clear, data-driven narratives to secure prioritization and foster understanding across the organization.
- “**JP Morgan Research News Aggregator**”, 2018-2019, JP Morgan.
 - Orchestrated the creation of a news aggregator system for individual research analysts, integrating RSS feeds, News API, and web scrapers. This led to a 25% reduction in time spent on information gathering, emphasizing my project and process management skills.
- “**India: Inflation Trends Analysis Tool**”, Bloomberg Quint, Oct 2021, JP Morgan.
 - Headed a project assessing inflation trends in India, offering insightful data stories and working across stakeholders to align firm-wide priorities.
- “**US: Alternative Data Insights Dashboard**”, Mar 2021, JP Morgan.
 - Oversaw a project summarizing the utility of alternative data, concluding that high-frequency data provided early signals of dramatic turning points during the pandemic, leading to a 10% increase in data-driven decision making.

LEADERSHIP

- Affinity Group Leader, FinTech** – Fung Institute, University of California, Berkeley, (Aug 2022 –Present), Berkeley, CA: Regularly participated in meetings at the operational and project level with management and project sponsors to discuss strategy in the field of FinTech.
- Secretary, House of Socio-Cultural Affair, Student Gymkhana** – IIT Patna, (July 2016 – May 2018), Patna, India: Utilized exceptional project management skills to supervise the organization and management of all cultural events with a yearly budget of ~\$25,000 USD.

AWARDS

- Awarded the **Fung Fellowship** at Fung Institute for Engineering leadership, UC Berkeley (2022), United States. (40,000 USD\$)
- Awarded National Tsing Hua University's **GEL(Global Engineering Leadership) fellowship** for research (2017), Taiwan.(100,000 NT\$)
